SATURDAY EVENING, NOV. 5

On Tuesday next, November the Stir, a general election, for representatives in Congress, will be held throughout the United States with the exception of the few states which held their election early in the fall. Virginia will choose ten representatives. Trumbull in the Fourth, Glass in the Sixth, Carlin in the Eighth and Flood in the Tenth districts have no opposition.

Following is a list of the democrats. republicans and socialists in the other districts who are aspiring in the order of their party standing on the ticket, so republican prospects in Massachusetts far as they are known to be the nominces of parties:

First-William A. Jones, of Richmond; George Nelms Wise, of Newport News.

Second-E. E. Holland, of Suffolk; H. H. Rumble, of Norfolk. Third-John Lamb, of Richmond;

W. R. Vawter, of Henrico. Fifth-E. W. Saunders, of Franklin; John M. Parsons, of Grayson; J. B. Anglin, of Henry (the latter is an in-

surgent.) Seventh-James Hay, of Madison; John Paul, of Harrisonburg, and Hugh S. Lupton, of Winchester (both republicans).

Ninth-Henry Carter Stuart, of Rus-

sell; C. Bascom Slemp, of Wise. The republicans are claiming that they will carry the Fifth and Ninth districts, but these claims are being denied by the democrats who claim that they will elect a solid delegation this has been installed in the Solons' restauyear. The fact that Mr. Carlin will have rant, marble floors laid, the two prevent no democrat from going to the polls and casting his vote for the nominee. The Eighth should especially make a good showing.

It is not strange, says the Philadelphia Record, that a feeling of disgust has arisen in New York in witnessing the mingled cant and hypocrisy of Mr. Roosevelt's crusade in behalf of political morals, in view of his own promotion of wholesale corruption when president. The "Dear Harriman" letter offered sufficient proof of his personal share in the political corruption which he so sanctimoniously deplored. The New York Evening Post reveals that besides the Harriman contribution of \$250,000 H. C. Frick, the steel trust magnate, and H. McK. Twombley, the railroad baron of the Vanderbilt connection, were each bled by Roosevelt for \$100,000 for expenditure in New York in the campaign of 1904. Twombley's contribution was not made as another "dear friend" and admirer of Roosevelt, but as a representative of vast railroad interests. One of the effects of Frick's timely tribute was witnessed in Roosevelt's approval of the absorption of the Tennessee Coal and Iron Oompany by the steel trust, which made the most gigantic combination of capital in the world. A revival of these scandals and of others of like character was provoked by Mr. Roosevelt's crusade of political morality in order to present him in a true light before the people whom he seeks once more to cajole. It is a hard but necessary lesson.

DR. CHRISTOPHER KOCH, of Philadelphia, vice-president of the Pennsylvania Pharmaceutical Board, who recently directed a crusade against cocaine and opium sellers in Philadelphia, says that 48 per cent of all criminals are addicted to a drug habit of some sort. He adds that the use of opium in this country has increased 359 per cent since 1860 and that 150,000 Americans and 120,-000 Chinese in the United States smoke 168,000 pounds of opium every year. He favors life imprisoment for criminals known to be drug users. "If I had my way," declared Dr. Koch, "I would put them all in an asylum, where Navy Meyer to Guantanamo, that the I would keep them until they died. Very few of them ever get cured of the and too costly to adequately fortify. habit. While under restraint they can do without their dope, but remove the It is hoped by the Navy Department to restraint and back to it they go as fast present to Congress at the coming sesas they can get it." Dr. Koch's experience appears to be that of all observant people, laymen as well as physitians,

THE dangers that beset men on everyside are innumerable, for instance: Charging Thomas S, Blickerton, s a wealthy farmer, with trying to alienate her affections from her husband, Mrs. Hugo Link appeared before the arbitration court in Pittsburg on Saturday, demanding \$25,000 damages. At the same time the husband of Mrs. Link entered a suit against Blickerton on a similar charge. Mrs. Link declares that Blickerton attempted to arrange meetings with her so that she would be won away from wanted to meet her to discuss property time he wants either to buy or sell Italy with which that country will not today,

property he will consult a real estate dealer.

It is suggested by a cotemporary that the chief object of prosecuting the trusts instead of pulling their teeth by the nippers of tariff revision is to enable the Attorney General's Department to pay big fees to special coursel belonging to the republican party and supporting the administration. And recent developments prove the truth of the suggestion.

It is now regarded as certain that there will be a big cut in the cost of telegraph messages in Canada very soon and that the rates will be made approximate to those prevailing in Great Britian. It is hoped that the telegraph companies in the United States will follow the example set them by their northern brethren.

CONGRESSMAN BUTLER AMES, O Massachusests, in an open letter calls upon United States Senator Henry Cabot Lodge to pledge himself not to be a candidate for re-election, in the interest of the republican state ticket. When Lodge has to sacrifice himself, must be blue.

FROM WASHINGTON.

President Taft was asked today to stop at Richmond on his was back from Panama and he told Col. J. C. Hemphill and Senator Martin, who ex tended the invitation, that he would de so if he possibly could.

The Capitol building has received a complete renovation during the holiday recess of Congress, and, according to the annual report of the superintendant of the Capitol building and grounds, made public today, the building is better prepared to receive the returning Congressmen than ever before. A special attraction for the senators has been made in the expendi ture of \$2,764.23 for new fixtures and repairs to the ranges in the mucl. ibused Senate kitchen. Superintenden: Woods reports that mahogany furniture 74 for the fiscal year ended June 30

The pay rolls of the Capitol building amounted to \$16,977. 1910. Machinery and ironwork to the extent of \$5,882.54 has been installed. marble, stone and brick improvements amounted to \$4,378.80 and repairs to the kitchen ranges and new fixtures cost \$1,054.33. The report contains many improvements made throughout the building and Woods has issued in his report a welcome message to the

returning members. The controversy over the attack of Theodore Roosevelt upon the U.S. Supreme Court has again been fanned to flames today by charges made against him by Thomas Nelson Page, the southern author and sociologist, who practi cally accuses the expresident with trea-"There is no doubt whatever," declared Mr. Page, "that Mr. Roosevel has by bitterly denouncing the Supreme Court done much to injure his prestige in this country, and has committed : breach that is difficult to condone. Although reports from Centra American ports today indicate a rapidly approaching climax in the Amapali situation, the State Department has not seen fit to request drastic action by that navy for the punishment of General Valladares. It is understood that the Honduran government desires to make some attempt to dislodge Valladares. although their endeavors are not seriously considered here. By diplomatic courtesy however, the State Department will let President Davilla, of Honduras. take his fling at his refractory Valladares before directing American intervention. No word had been received at the Navy Department today from Commander Hayes, of the gunboat Princeton, now at Amapala, of further disturbances as that place, . CRIPPEN'S APPEAL DISMISSED

The American Doctor Must Die on the Gallows Next Tuesday.

London, Nov. 5.-Dr. Harvey Hawley Crippen must die on the gallows next Tuesday for the murder of his wife, Belle Elmore Crippen, unless the Home Secretary interferes. The Court of Appeals today dismissed a motion made by Crippen for an appeal, ruling that there was not grounds for another hearing.

Deathly pale, his twitching mouth showing the strain under which he was holding himself together, Crippen presented a pathetic appearance when he faced the court today.

His attorneys won the first skirmish, by being given the right to argue on the question of the appeal. Justice Ridley ruled that the prisoner could not be present during the arguments. But as soon as the court met in full session, Justices Darling, Channell and Pickford overruled Ridley's orders ind sent for the prisoner.

As soon as Crippen appeared, he becan to confer with his counsel. Barrister Tobin's first plea was that the urors had not been isolated and that here might have been outside comnunication. This plea was overruled by the justices.

Tobin then contended that the prosecution introduced important evilence at an improper time, and in this today. way deprived the defense of its right to rebut the evidence.

The justices then declared that no sufficient ground had been shown for reheating. Crippen's attorneys, though greatly disappointed, declared that their next step would be to ask the Home Secretary to either to commute the death sentence to life imprisonment or to grant Crippen a complete pardon. It is considered most unlikely that any lower now can intervene to save the prisoner from dying on the scaffold next Tuesday. The general belief is that the home Secretary will decline to

Carriers' window open Sunday 9 60 Randolph Tucker did a supreme act for Virginia when he gave her this son of his own heart, Henry St. George!

"Second to none in the mastery of the know'e ge of constitutional law, he was selected by visitors of one of our state institutions to teach our young men the strength and perpetuity of those statutes on which our civic glory rests. Wise and clean in political life disdaining by either silent connivance at villainy, or by cunning and loathsome treachery to climb into power, he has borne his defeat with gentle silence, and contributed of his wealth of mind and heart for peace in his party, with a magnanimity inferior to none and equaled by few.

"It gives me pleasure, therefore, to I stand at the very foot of this pedestal on which character has placed him, water swept far up the streets, those and looking up to him, say to you, near the shore being completely inun- ladies and gentlemen, and comrades, dated. The schooner Mary Sachs was Hon, Henry St. George Tucker is the speaker for this hour!"

STRIKERS SING "MARSEILLAISE."

Led by a throng of women singing A monster labor demonstration of a the "Marseillaise," several thousand terday to telegraph funds, Edward Hough by running down in his auto- revolutionary character which had been striking garment workers paraded brough the North Side factory district of Chicago late yesterday. The marchers visited each of the open shops in that section of the city and shouted derisively at non-union workers and strikebreakers.

As soon as the large procession of strikers formed the police reserves were hurried to the North Side and through out the march the strikers were watch ed closely. Several attempts at disorder were quickly quelled by the patrolmen, who made a number of arrests. At the headquarters of the union

more than 3,000 worn-looking men, women and children clamored yesterday There is a new arrival at the Chinese for small allowances with which to stand off starvation. The struggling mass crowded every approach to the building and formed a pitiful spectacle at the doors of the City Hall and the principal banking houses there.
